

## **Presidential Candidate Chance Trahan Took The World By Storm**

*Why Is The Whole World In A Panic About Chance Trahan's Nonpartisan Presidential Campaign*

**POMONA, Calif. - April 30, 2020** - [PRLog](#) -- A single Presidential Candidate took over the entire world by himself in one fell swoop. And all this took was the decision for him to announce his campaign for US President. Ever since then, the world has been responding in ways that he couldn't have ever imagined. Mass Politicians entering panic mode, One World Globalists in sheer pandemonium, Globalist leaders paying Mainstream Media to push a massive epidemic narrative, Law Enforcement officials scurrying to satisfy demands made by Politicians to do whatever it takes to cover up the news of Chance Trahan's Presidential Campaign. The world is changing at an even more rapid pace than what the event of 9/11 did to shake the entire world in one day. But, the question is why?

Why is the world responding in such ways? Chance Trahan seems to think that it's all because of the moment he decided that he wants to become the next President of the United States. He feels that there is no other explanation for the cause. Because of what Trahan has been hard at work exposing, the Rothschild's control over the world's economy is suddenly slipping.

Lord Rothschild has said, "The New World Order is being destroyed. Co-operation today is proving much more difficult."

The article posted in August of 2018 goes-on about the value of the Global Dollar, their family's investment portfolio, and things like that, but the title of the article is what's important. They feel as if their New World Order they've worked so hard at building is being destroyed. Seems that people are walking away from the Rothschild gang in troves. Could this be so? Is no one willing to work with them anymore?

Nonpartisan Presidential Candidate, Chance Trahan, has something to say about that, "You can believe what you want to believe about this, but the fact stands that the Globalist Elites are in a panic of epic proportions. They're desperately grasping at whatever they can to try to maintain control over their human trafficking industry. That's what this all comes down to, whether you want to accept the fact or not."

"They're doing whatever they can to rush the spoof of an alien landing, and the hoaxed return of the Christ. They want control over our lives so badly that they're willing to try anything, and they're dumping so much money into everything they can to try to regain their grip on this self-proclaimed control they have over the world and society," says Trahan.
